EXPERIENCE

01 synergy

Software Trainee:

Basics of web development and HTML, CSS and JavaScript and react
Built basic web pages and improved understanding of frontend development

Jan 2026 - May 2026
Ludhiana

PROJECTS

• **Hospital CRM**
Developed a Hospital Management & CRM System using React.js and Firebase with role-based authentication (Admin, Doctor, Patient). Implemented OPD workflow including patient-doctor assignment, prescription management, and real-time progress tracking. Integrated Firebase Authentication and Firestore for secure data handling and scalable backend operations. Designed responsive UI with Tailwind CSS and built protected routing for role-based access control.
